FOUNDED

Vance Street is a Los Angeles based private equity firm that acquires and builds engineered solutions companies in Medical, Industrial and Aerospace/Defense markets. We focus on companies that solve difficult problems for blue chip customers and have earned an important position in their supply chain as a result. Our passion is helping an entrepreneur, who has built an excellent company transform that company into a larger strategic player in their industry.

MEDICAL

- Medical Device and Component Contract Manufacturing
- Advanced Catheter Components and Medical Tubing
- Micro-Machining and Metal Components
- Advanced Polymers and Injection Molded Components
- Life Science Tools & Diagnostics

INDUSTRIAL

- Industrial Sensor Technology
- Electronic Components & Systems
- Filtration, Flow Control & Seals
- Test and Measurement
- Industrial Automation Systems and Components
- Power Transmission and Actuation

AEROSPACE

- Airframe Components
- Avionics & Electronics
- Composites & Advanced Materials
- Interiors
- MRO
- Power & Motion Control
- Distribution & Supply Chain
- Ground Support & Test

DEFENSE

- Defense Electronics / Hardware
- C4ISR and Unmanned Systems
- Security and Infrastructure Protection
- Aerospace Electronics and Subsystems
- MRO and Logistics
- RF & Microwave Systems / Components

ENTERPRISE VALUE

- Platform Investments: Enterprise value of \$30 million – \$250 million
- Add-on Acquisitions: Any size

FINANCIAL CHARACTERISTICS

- Platform Investments: EBITDA of \$3 million - \$25 million.
- Add-on Acquisitions: Any size

CURRENT PORTFOLIO

	<ul style="list-style-type: none"> Jet Parts Engineering ("JPE") is a leading designer of proprietary aftermarket replacement components, known as Parts Manufacturing Approval ("PMA") and complementary proprietary component repair services, known as Designated Engineering Representative ("DER") repairs. JPE was founded in 1994 and is headquartered in Seattle, Washington. Vance Street acquired JPE in 2018. (https://www.jetpartsengineering.com/) 	
	<ul style="list-style-type: none"> Adam Spence (FKA Fermatex Vascular Technologies) is a leading provider of advanced medical catheter components. The Company specializes in designing and manufacturing high pressure braided tubing, extrusions and assembly/molding for the cardiovascular device market. Adam Spence was founded in 1960 and is headquartered in Wall Township, New Jersey. Vance Street acquired Adam Spence in 2017. (https://www.adamspence.com/) 	
	<ul style="list-style-type: none"> RST Instruments designs and manufactures highly-engineered geotechnical instrumentation and data systems for applications where structural integrity must be assured. End use applications for RST's products include critical structures such as bridges, hydroelectric dams, mines, railroads, airports, tailings dams, tunnels and highways. RST was founded in 1977 and is headquartered in Maple Ridge, Canada. Vance Street acquired RST in 2017. (http://www.rstinstruments.com/) 	
	<ul style="list-style-type: none"> Motion Dynamics is a leading manufacturer of wire based micro-components and sub-assemblies, which are frequently found in micro-catheters, pacemakers, neuromodulation devices and in various other industrial and aerospace and defense applications. Founded in 1992, Motion Dynamics' customers include a wide range of leading medical, industrial and aerospace and defense companies. Vance Street acquired Motion Dynamics in 2016. (http://www.motiondc.com/) 	
	<ul style="list-style-type: none"> A&E Medical Corporation is a leading medical device OEM primarily focused on single-use products used in cardiovascular procedures. A&E's core products include a wide range of sternal closure devices as well as temporary cardiac pacing wires and extension leads. Founded in 1968, A&E's customers include domestic and international hospitals. Vance Street acquired A&E in 2016. (http://www.aemedical.com/) 	
	<ul style="list-style-type: none"> Micronics Filtration Holdings, Inc. is a global provider of aftermarket and OEM filtration equipment and consumables for use in mining, chemical, wastewater and various other industrial end markets. Founded in 1983, the Company supplies filter presses, replacement plates, parts and filter cloth and filter bags for all equipment. Vance Street acquired Micronics in 2013. (https://www.micronicsinc.com/) 	
	<ul style="list-style-type: none"> International Aerospace Coatings ("IAC") is one of the world's leading providers of services to the aviation industry, including exterior and interior aircraft painting, aircraft refurbishment and graphics together with a range of specialist services. IAC provides these services to many of the world's largest commercial airlines and OEMs, VIP aircraft fleets, aviation leasing companies and the military. (http://www.iac.aero/)
